

# RIDGEBACK FLIGHT T3 HYBRID ROAD BIKE (250 GBP)

Location **South East, Kent**

Bought in 2008, this bike was only used for commuting for 18 months, then once or twice a year afterwards. It's in fantastic condition and had the brakes, cables and chain replaced in service in 2013. Frame size - small, roughly for someone 5' 9" and under. Nice and light with carbon front forks, this bike cost £650 when bought, and I still have the original receipt and book from.
