Sprockerpoo puppies ready to leave 26th April (695 GBP)

Location **East Midlands, Nottinghamshire** https://www.freeadsz.co.uk/x-319301-z

For sale - Six adorable Sprockerpoo puppies awaiting their forever families. Ready to leave from 26th April. Dad is a Sprocker spaniel and Mum is a Cockerpoo, they both have a lovely temperament and no health issues and can both be seen. This is their second litter of puppies.

There are three girls and three boys, two black and white males, one black male with a little white on his chest, one all black female and two black females with touches of white.

They are being reared in a loving environment and are compatible with other animals and children, they are perfect for people with pet allergies as these puppies do not moult. The puppies will be reared on a no expense spared basis, and will be well wormed throughout. They will have their first vaccination and a thorough vet check before they are allowed to leave. The puppies will be microchipped, the new owner will need to change the personal details on the chip once they have taken their puppy home. There is a new law being enforced that states as of April 6th 2016 all dogs must be microchipped. The puppies will each come with a gift pack which consists of a blanket, chew toy, puppy biscuits and informative care sheets on feeding, training and general health. Viewing will be welcome, in a warm and safe home environment on the dates specified below. The puppies will be ready to leave from 26th April when they will be eight weeks old. I have included recent photos of the puppies and put together a small web page with a video and photos of last year's very successful litter, they are all so lovely and celebrated their first birthday on March 27th. Please click the link below to visit the page :-) Viewing will be arranged when an enquiry is made. A £100 deposit secures the puppy of your choice (subject to)
