Find Out How YOU Can Stop Anxiety and Worry with Clinical Hypnotherapy At Wise Blue Owl our hypnotherapists have been hugely successful in treating anxiety, panic attacks and stress using clinical hypnotherapy. Anxiety and panic attacks are the result of inappropriate stimulation of hormonal and nervous 'stress response' pathways. In contrast, hypnotherapy is a procedure which can induce deep states of relaxation. The process of hypnosis tends to switch off the 'stress response' and switch on the 'relaxation response'. Self-hypnosis is a relaxation skill which you can learn. It can empower you to gain more control over previously stressful situations. If you would like to explore further about how hypnotherapy can help you with your fear of flying, then please contact us to book an initial consultation.
