Here we have an immaculate 2007 Honda CBR1000RR Fireblade. The bike is in untouched/standard condition, just as it came out the crate. The bike comes with all original keys and manuals as were supplied new. The paintwork is in great condition and has been fully polished by our on-site valet. The bike comes with a factory fit immobiliser, this stops a cloned key or screw driver being used to start the bike. Fitted with Datatag protection, a favourite for insurance companies. With an alarm fitted for security, this will reduce those heavy insurance costs and give you more peace of mind. A Tail tidy has been added to the bike to give a more racing look and de-clutter to back end. A Hugger has been fitted not only for looks but to keep the dirt from the road hitting the paintwork. Fitted with a double bubble screen for an extra bit of wind protection and sportier look. Top spec engine protectors have been fitted just in case the worst should happen. Saving your panels and wallet from taking a battering. A tank pad has also been fitted to the bike, these protect the paintwork from rubbing with the riders jacket. Being Fitted with Adjustable Brake and Clutch levers enables the rider to set up the bike as they want it. The bike has also been fitted with a performance exhaust, this allows more of a growl upon acceleration and also allows the throttle to be a lot more responsive. The bike has been fitted with braided brake hoses, this means there is no room for expansion as you get with rubber hoses giving much better braking efficiency. The bike is also fitted with LED Indicators, these not only look fantastic but give a brighter more visible illumination. This bike has a digital instrument display making it quicker and easier to see your riding information while riding. A fuel trip computer comes with this bike, it tells you your average MPG and also many miles you have left with your current fuel. The bike has been HPI checked and a Certificate will be presented with the bike. Viewing is
