VW transporter factory Kombi T32 short wheelbase. I purchased the van on 23rd March 2010 and have been the owner and sole driver since. The van is registered new in December 2009. The engine is a 1.9 turbo diesel that has been remapped to 140hp from its original 102hp. This has increased the fuel economy to around 37mpg and improved its performance. The work was carried out by a local professional that specialises on VW engines 18 months ago.
