On offer is a large chinchilla cage, 2-tier, made by John Hopewell. These cages are really well made from galvanised metal mesh and last ages, this is in very good condition except for the chewed top wooden perch shelf - the shelves are readily replaceable. Just been pressure-washed. The cage measures 24"W, 18"D and 35"H (61cm x 46cm x 89cm), with integral hay-hopper, three wooden shelves, a mid-level mesh floor with corner pop-hole, and with a pull out base tray to make cleaning easier. This cage configuration has two separate large drop-down doors. Metal food bowl included. We have variously used this cage both for two chinchillas living together and for one alone. Collection only, from Northampton
