have 2 cages of the same size but both in desperate need of repair although they had animals in them recently. the bad weather made the roof collapse on one and it also has an eaten side but it has 2 plastic floors for easy cleaning and the other has a hole in the bottom back so you could just use the top and fix the sides. if you have plenty of space you could join the 2 together for extra large! will be demolished in a few days but FREE so please make use of them even if temporary housing for rabbit, guinea pig
