

# Mariner outboard 30hp 2 stroke engine (500 GBP)

Location **South East, Kent**

<https://www.freeadsz.co.uk/x-367240-z>

Mariner outboard 30hp good running order.

Has new plugs, cleaned carb seems to push plenty of water.

Has a key attached to act as a kill switch The stand the engines on is also included in the sale if wanted.

Has no tiller as the outboard was used with a remote throttle system and unfortunately no starter motor mount ( despite weeks of hunting for the correct one) either but i find it fires up easily on the pull starter.

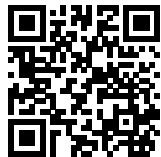

Has had some paint put on her to cover up a even worse paint job done by the previous owner Selling as I just gotta admit my mate and I are not going to be getting onto the water with the boat, a white and black 14 foot fletcher esk 2 seater ( also open to offers on the boat with the trailer included but its currently at my mates stables so would have to arrange a viewing of her)

If you cant get through on the mobile please feel free to text message me and i will get back to you as soon as possible. Open to offers and can deliver for free if within 20 miles of Nutley East
