Hi Our beautiful little girl Willow has had her puppies, there is only 1 girl left and ready for her forever home. She has been raised within our home with lots of interaction from everyone, she is used to all household noises, and loves causing mischief. We have both mum and dad which can be seen when viewing. She is now fully vaccinated, microchipped and vet checked. She is a very sweet natured little girl, gives lots of kisses and just wants to play and please you all the time. She has a very curly coat, very outgoing, does her toileting outside during the day and uses puppy pads on a night. If you have any questions about the breed, please do not hesitate to ask.

Thanks for
