Victorian dark oak barley twist chairs with caned seats and backs. One carver and 5 chairs. Carved detail to top back area with turned barley twist legs and frame. We have had these for over 40 years and had them re-caned then. As shown there is some damage to the seating of 3 chairs and the back of the carver panel. We have some ply-wood templates that can be used (and we used) over the seating area to protect or use a cushion on. Beautiful natural aged warm patina to the wood. We are reluctant to part with these after so long but due to our move we cannot keep them. We have local caner who is reasonable who can quote you if interested. ;
