Website design and development service,

Enthusiastic BSc Computing student with extensive knowledge on computer science and software.

Looking to design and develop websites to enhance my CV further. I use a simplistic, minimalistic and efficient method when it comes to creating websites.

Services that I can offer:

- Responsive mobile website with full e-commerce facility.
- Checkout buttons and shopping process wizards.
- Widgets and external account button design and integration.
- Develop landing page, user on board and customer experience pages.
- Fully integrated website with multiple pages including home and product pages.
- User interface/experience design and implementation.
- Simplified scrolling feature using JQuery.
- Animation, pop up features and unique navigation menu bar.
- Image compression and video integration.
- Heuristic evaluation and user testing.
- Interactive menus and screen designs.
- Plugins and extensions included.
- External style sheets for ease of management.
- Stylish backgrounds and tiled pictures.
- Banner design, company contact footer and bespoke page layout design.

- Logo design, colour scheme selection and type font design.

- I can also add custom content block for you.

- I can also add mobile search with real time results.

- I can also add S3 and Amazon S3 Technology.

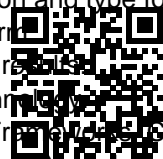

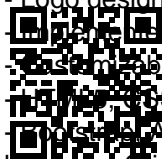

- I can also add AngularJS and JQuery Frameworks to your CV, references and a clear background (if you are known as Criminal Record Bureau check) can be seen in the uploaded pictures. If you do not like the

website, do purchase is necessary. Please contact me for a quotation. As I am still a student, and I practice

for a small or medium sized business would enhance my skills further. Please ring or text Chris on
