The beautifully crafted Apache range is the ideal solution for those wanting to accommodate a family in exceptional comfort, yet still maintains a sense of style and panach. Using the same advanced production techniques as our flagship Frontier range and including much of the high specification of its larger sibling, the Apache range includes numerous of standard features that we feel would be cost options in our competitors' products including ESC, Traction Plus, solar panels and recessed awnings. The Apache 700 is a good practical balance between on the road maneuverability and berths. It can sleep up to six occupants so is an ideal family motorhome. The ideal motorhome for the adventurous family, the living space features a double dinette as well as a U-shaped lounge providing two separate dining areas for a relaxed and flexible holiday. Built on the more substantial 4,250kg chassis, you will have significantly more payload to play with, so nothing gets left behind. This model comes with an efficient 130bhp engine with a precise six-speed manual gearbox, Electronic Stability Control (ESC) and traction control, all as standard. MEDIA PACK 2 FITTED: A) Integrated 18.5" Avtex drop down wide screen TV/DVD player incorporating digital and satellite tuners.
