semi circular modern black grain finish. Black metal legs. Used but no signs of wear and tear, it.e. No splits or cracks to surface or edges of table. Have tried to show pics from all angles so that you can see what good condition it is in! Max width - 47 inches. Max depth to outermost semi-circle 24 inches. Height 28 inches and folds to max depth of 2 and a half inches. 20 millimetre thick table top This is a very sturdy heavy office grade furniture I.e. Not a lightweight banqueting table furniture. Design means does NOT tip forward if you lean on front edge! Extremely quick and easy to erect and fold away with spring click lock action by one person (without bending down). Also good at home i.e computer, sewing machine, work desk etc. You are welcome to arrange to visit and test action for yourself. Cash on collection please.
