MOT'd until 14 Oct 2016

I got this to learn to drive but due to pregnancy and maternity, I now don't have the time (and can't fit behind the steering wheel!!)

The car is running, working and driveable with no immediate issues that I'm aware of. It has some small areas of rust due to cars age.

Test drives will be subject to proof of insurance.

Car has been hoovered and cleaned prior to sale.

Approximately half a tank of fuel left in car for new driver.
