My lovely 1965 Triumph tiger is up for sale. I purchased this bike in 2009. It has always started easily and is a lovely bike to ride. It's a real head turner with it's twin exhaust sound! Reason for selling as I have moved and sadly have no room for her or time to ride in the sunshine! Fuel tank has been resealed and sprayed and I have a MOT till Sep 2016. Front fork seals renewed a few months ago. Sound bike, great runner, great compression. Matching frame and engine numbers. Colour of bike is not standard but I bought it that way and like it.

Spent over £2,000 in parts getting her how I like it. Have receipts of parts bought. 9 previous owners and have some details. Sought after E reg bike. Smiths speedometer fitted. Will sell a collection of spares separately. Also have manual and parts catalogue if interested. Date of first registration 3rd March.
