

Samsung H Series American Fridge Freezer (600 GBP)

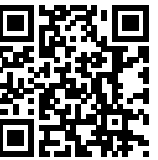

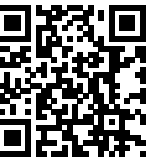

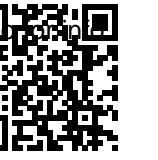

Location **South West, Wiltshire**
<https://www.freeadsz.co.uk/x-390893-z>

This item is brand new never used (packaging removed when delivered), replaced by insurance and no longer needed due to new integrated kitchen

Twin Cooling Plus System gives you the best of both worlds The new H Series Refrigerator uses two separate air flows and precise temperature control to maintain optimal humidity levels on both the refrigerator and freezer sides. This Twin Cooling Plus System helps keep your apples fresh, prevents your ice cream from getting freezer burn, and stops ice cubes from smelling like the garlic bread you've stored in the refrigerator. Information and control at your fingertips Know whats happening inside your refrigerator without ever opening the door. The external LED display, with its pleasing blue glow, shows the inside temperatures for both sides of the new H Series Refrigerator, and lets you know when its time to change the filter. Touch the display to dispense water and ice, or to set the refrigerator to Vacation Mode when you go on holiday. Sophistication made simple As any great chef will tell you, its all about presentation, especially in the kitchen. The contemporary elegance of the new H Series Refrigerator helps inspire dazzling and scrumptious meals. Sleek style heightened by smooth lines and a polished finish in a premium feel that complements and elevates your kitchen decor. If your kitchen wasn't already the most popular room during a party, it is now. Enjoy more ice and space with the Clear View Icemaker Built right into the door, the Clear View Icemaker frees up valuable space in the freezer while storing up to 2kg of ice. This move gives you two more shelves for storing liters of ice cream, frozen meals and family-size boxes of waffles. The ice maker also features a transparent compartment so you can see just how much ice you have on hand. Easy-opening doors for even the youngest gourmet Imagine a refrigerator handle that opens up your kitchen. Instead of sticking out into the kitchen space, the EZ Handle is inset
