Bought this Morris Minor Rally Style ongoing Project a while but not a lot of spare time at present,bought with no engine,radiator exhaust or seats etc,but the car comes with Full Rollcage,expensive Sports Steering Wheel,Dash mounted Rev counter etc,No Mot and the car is on Sorn,V5 in my name and some paperwork related to the car,the car was titted with a 1275 engine and bucket seats were removed by the last owner for another Project,i have bught an 1100cc engine and gearbox which are on a rolling trolley,the 1100cc engine has a LCB down pipe,bigger carb on a sports inlet manifold,alloy rocker cover and a few other shiny bits,new clutch and water pump fitted by the previous owner of the engine,the bodyshell is in good condition for year,excellent back wings,front wings and boot lid need a tidy,the car is standing on normal road wheels with aged tyres,this Morris Minor will make an ideal Historic Rpad Rally themed car,the car is offered as an ongoing Project and would need to be trailed away etc,No Silly offers or Timewasters.
