Lovely car, runs great, needs new ABS pump so has no MOT currently, this could be replaced and the car would be a perfect runner but I don't have the time. Great first car, very economical and cheap on insurance. Had a new clutch at 130,000 miles, and all 3 cylinders replaced 3 years ago when I first bought the car. Very light clutch steering and gears making it a comfortable easy drive. The car has some signs of wear as expected with a car of this age.
