This bike was imported from Japan and registered in the UK in 1999 and has an age related number plate, when I purchased the bike it was a rolling chassis with a seperate 1978 engine, I have spent a lot of time and money restoring this old classic to a very high standard and it runs and rides like new, it has just had an MOT and went through with no problems, I have a list of all the work that's been done which is too long for this ad but if you are interested in the bike I would be happy to provide a copy. NB. Test ride only if insured and I have full payment in cash as security.;
