

Nikon-COOLPIX-L310-14-1MP-Digital-Camera-Black (90 GBP)

Location **East of England, Cambridgeshire**
<https://www.freeadsz.co.uk/x-426973-z>

I have got this camera approx. 16 months ago as a present. It's like new. I'm not much of a photographer myself so it has not been used much. Reason of selling: de-cluttering. I threw away the original box, but all the CDs, lead, booklets etc are available. Nikon Coolpix L310 Features The L310 has a 14 megapixel CCD sensor and 21x optical zoom lens, which is a 35mm equivalent of 25-525mm. There is sensor shift VR (vibration reduction) to help reduce the effect of camera shake. Shooting is made easy thanks to Easy Auto mode, which automatically adjusts the cameras settings for the scene. There are also 17 scene modes which can be manually selected as well as Sports Continuous and Smart Portrait System. This includes Smile Timer, Blink Proof, Skin Softening and Red-eye Fix. Videos are recorded at 720p HD, with optical zoom available during recording. Key Features 14 megapixel CCD sensor 21x optical zoom lens (35mm equiv: 25-525mm) Sensor shift vibration reduction (VR) 3 inch LCD screen Sports continuous mode 720p HD video recording ISO 80 - 6400 1cm minimum focusing distance Smart Portrait System Nikon Coolpix L310 Handling The L310 offers a rubberised hand grip as well as a rubber pad on the rear for your thumb, making it an easy camera to grip. As you may expect for a budget camera, the body is made from plastics, but it does have a metal tripod socket and a lock to keep the battery and memory card cover firmly in place. Nikon also supply a lens cap with the camera. The menus system is simple and easy to navigate using the d-pad. The other buttons are typical for a digital compact, with a movie record button placed on the rear. The 3 inch LCD screen is clear and easy to view. The L310 is powered by four AA batteries, meaning it'll be easy to find replacements when.
