

# BSH Silver Tabby and Silver Spotted (550 GBP)

Location **South West, Dorset**  
<https://www.freeadsz.co.uk/x-428772-z>

Kitten in last two pictures is now available and ready to leave. I had hoped he would go long coated but unfortunately its stayed at a deep teddy bear coat.He is an absolute dream of a boy so cuddly and loving with emerald green eyes to die for ...other two Available end October from our World Champion Imported and Uk lines. Both parents are silver, registered with breeding and showing rights here and abroad .Both can be seen and fused over along with their families. These will not be ready until a MIN of 10weeks of age Fully Vet Checked to leave Silver Tabby and Silver spotted both boys

Our babies are brought up within the home , by the time they leave they are confident, playful and bold little people having had the run of the house and litter trained etc. We appreciate some people travel great distances and sometimes only a collection visit is possible. Therefore we offer our Vets as a reference on us . Also this time of year we try to help work around your holiday commitments as the right home for them is more important. They come with a full health vet check, deflead and wormed via the vets, 5 generation pedigree cert, Ins for 4 weeks, full information care pack, biscuits , wet food, toys etc. If you think you may be the right mummy or daddy for one of these special loyal loving companions please email a little about the home that would.
