Its that time of year again, when the autumn and winter start to draw in, and your touring caravan is locked away on your car park or in a storage yard until April, when you get it back out again for the next 6 months. But does it have to be like this? Do you have to lose 6 months a year of holiday time?

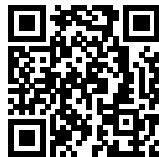

The answer is NO! Here at Kingfisher Leisure Park, we offer our holiday home owners a 12 month holiday season, and with most caravans available with double glazing and central heating, you can still get away at the drop of a hat, even in the winter and be comfortable.

We are offering touring caravan owners the opportunity to part exchange their caravan for one of our pre-loved or new static caravans this september & october to make use of the fantastic scenery and their holiday home in the winter, even at Christmas! With a minimum trade in of £1,000, even the oldest of tourers will get something back for it!

So contact Cameron or Stuart today to arrange a viewing of the park and see if we can be right for.
