Location West Midlands, Worcestershire https://www.freeadsz.co.uk/x-435684-z

At 150-watts per-channel, the C 372 is capable of powering many of today's demanding low-impedance, audiophile-grade speakers with the power and finesse of a traditional separates component system. The massive internal amplifier features a Holmgren<sup>™</sup> toroidal transformer and NAD's proprietary PowerDrive<sup>™</sup> technology and can be bridged into a mono configuration to deliver an incredible 400-watts (8-ohms). The preamp section of the C 372 is impressive on its own, boasting 7 line inputs, main-amp inputs and 2 preamp outputs. While there are direct access controls on the front panel, the SR-5 remote provides the convenient control of features and general use. C 372 Stereo Integrated Amplifier Features

2 x 150W Minimum Continuous Power into 4/8 ohms 220W, 340W, 460W IHF Dynamic Power into 8, 4 and 2 ohms, respectively PowerDrive<sup>™</sup> High Current Holmgren<sup>™</sup> Toroidal Power Transformer Bridgeable to 400W Mono (8 ohms) A/B Speaker outputs with remote switching 7 Line Inputs, including Two Tape In/Outs Main-amp input & 2 pre-amp outputs Bass and Treble Controls with Tone Defeat Switch Relay Input Switching All Discrete Circuitry
