

HP Compaq 6910p faulty LCD and optical drive (20 GBP)

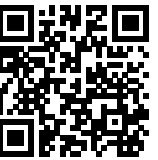

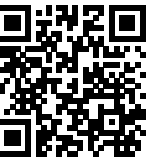

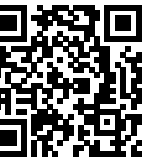

Location **South East, Berkshire**
<https://www.freeadsz.co.uk/x-445080-z>

I am selling a HP Compaq 6910p as faulty laptop. Intel Core 2 Duo @ 2.00GHz, 2Gb of memory, hard disk 80Gb, built-in wireless. There a minimum of worm and tear as you would expected for the age of the machine.

Bad news the laptop do have a faulty LCD and optical drive (DVD/CD). It was previously used by my daughter. I have wiped all the data and reinstalled with demo Windows 7 Home Edition via USB drive. In all, the laptop is still usable via external screen and it in good condition as seen from pictures. The battery still hold charged but cannot guarantee the length of time it will last. A charger and UK mains lead is included. I have priced as bargain to reflect the faulty parts so.
