Get on the WR125X and the first thing you'II notice is its sheer physical presence. With a full-sized Supermoto design, it's easy to mistake this for a higher capacity bike. But the surprises don't end there. Twist the throttle and feel the punchy response of a fuel-injected, liquid-cooled, 4-valve, 4-stroke SOHC single-cylinder engine as it delivers an rpm count that'II have you tearing up city streets and back.
