This vacuum cleaner is very powerful is got a very good suction and all works fine the only problem it will need a hose at he back as is cracked a little bit ,and a little attention generally but in a very good working order ,all welcome to come and see it.This hose is used for hand cleaning corners and awkward places to reach,of course this cost me a lots of money when was new like £ 430.00,It served me very well but now I don't need it any mere so it has to go?? Hence the reason s going for such a low
