Kawasaki J.300i Scooter, Engine: 299cc, Yer/Reg: 2015/65, Mileage: 500, Colour: Silver, With only One Owner from New this scooter is in excellent condition. The J300 is an excellent entry into the competitive scooter market and shows the firm is really serious about the market. It's sits perfectly between lighter 125cc scooters and much larger and heavier maxi scoots, combining a good spread of power with good, easy handling. As you'd expect from a scooter the ride is plush without being too soft and at 191kg it's not too heavy to throw around mini roundabouts and between cars. Out on the open road it's surprisingly fun and easy to ride. The saddle is very plush and after a full day of riding was still comfy. Despite 'only' making 27bhp the 299cc single-cylinder engine in the J300 has plenty of go. It's easy to overtake uphill at 70mph and it'll happily sit at 80mph without any trouble. There's enough punch from the engine to make light work of dicing between cars and getting away from the lights in.
