This ER-6n ABS has only covered 6100 miles from new and is serviced up to date. Registered on 18-05-2012 in very good condition and ready to go. The old ER-6n was already an excellent bike " which is why it sold so well in the UK and even more so in Europe. So Kawasaki didn't have to do much. Yet they have succeeded in enhancing every aspect of its appeal. The looks are better and the ER-6n is now even easier to ride and more manageable which should also attract more new riders, especially women because it's small, thin and not intimidating. The revised engine is a peach and the chassis is brilliant in town. Condition:
