The Pinnacle of compact luxury leisure vehicles. The new V-Line 'SE' sets the new standard in compact motor-homing. The V-Line 635 gives you a great layout incorporating a front seating area (Driver and passenger seats) with a spacious rear lounge with 6 foot seats. The benefit of the V-Line 635 is the ability to use the rear lounge as either 2 singles (easy access to bathroom in the night) or as a large double bed. At the front the cab starts with the 130bhp, 6 speed manual gearbox, Cab air conditioning, driver and passenger airbags, ESP and Traction Plus - including 'hill hold' and 'hill descent' as standard for a more comfortable driving experience, and LED daytime running lights for enhanced safety. The cab is now fitted with the pop up tablet/phone holder and the van has Aux/USB/iPod connection, integrated MP3, Bluetooth hands free system for audio streaming and SMS Reader. Plus steering wheel controls for ease of use. The cab seats can be both swiveled into the rear of the vehicle and there is a fitment for a pedestal table to fit between these seats. The 635 SE also has the addition of the extra cabinet behind the drivers seat for extra storage. The kitchen is fitted midway through the van and has the 3 burner hob, Oven/Grill and Microwave Oven as standard. Plus there is quite a lot of storage throughout. Opposite the kitchen below the wardrobe is the Dometic 3 Way fridge with removable freezer compartment. Heating and hot water is through either gas or 230v powered by the Truma system. The Gas is provided from an underslung 25 Litre gas tank so no more bottles to change. LED lighting throughout and the V-Line has the benefit of 100w solar panel as standard for off grid charging. 68 Litre fresh and waste water tanks gives you the benefits of not needing a daily supply. A great van and ideal for a couple looking for a luxury van conversion without a luxury price attached to it.
