

Dual CS505-2 turntable (85 GBP)

Location **East Midlands, Northamptonshire**
<https://www.freeadsz.co.uk/x-461937-z>

Dual CS505-2 turntable, fitted with new AT91 cartridge (it's had about 4 hours use). Has new drive and speed belts with one spare speed belt. Modified for IEC mains socket and dual phono sockets on rear, with trailing ground lead. Grounded via mains cable (or trailing ground lead - your choice, depending on amp wiring). All bearings thoroughly cleaned and regreased/oiled as appropriate.

Sadly the lid has gone the way of all lids, cracked to bits so in the skip. Will need a lid or dust cover of some sort.

The AT91 cartridge is a big improvement over the previously fitted Ortofon, this one sings very sweetly. Speed is good with no visible wow, low rumble due to added damping under springs.

All in all, I'm rather pleased with this one. Happy to demo on either of my two systems, bring you own LPs. I'll include an IEC mains cable with ferrite core RF stubber and a cheap and cheerful stereo phono/phono cable.

I'd rather buyer collects, but I can sort out shipping at cost if really necessary - will be in original box, located NN3 Northampton, UK.

£85
