<http://www.i-netsolution.com/item/video-community-script/092346> Our script is common video sharing place for not just the entertainment industry but also supports a myriad of categories such as sports, cooking, education, etc. Users can watch videos belonging to any category along with the description. They can also upload personal videos and any other category related videos. They can search the videos by using keywords. Users can post comments and reviews for the videos. Our script is integrated with social media so that the users can easily share the videos using any site. It supports archives so that the users can watch the past videos along with the date and category. Admin is the big player in our Video Sharing PHP Script. Admin has a clear dashboard to view comments, pages, recently published posts, etc. Admin has to approve the videos before they are posted on the portal. Admin manages the users. Admin sorts and decides the sample video widgets, manages the news and events so that the users can know about the latest updates. Admin manages the comments and reviews of the videos. Admin manages the banner ads. This Video Sharing PHP Script is developed by PHP, MySQL and Ajax and due to open-source it can be customized to suit any specific industry, news channels, etc. We don't have any restriction for modification of themes or coding. You have 100% freedom of customization due to CMS.
