

STORM SHILD ROOFING SOLUTIONS

uPVC Fascias, Soffits, Gutters & Downpipes

Maintaining your existing woodwork is not only time consuming, it costs money too. Rotting roofline can truly let your property down and it can cause structural damage leading to woodworm and could encourage vermin.

Isn't it time you replaced your old rotten roofline, with weather-resistant long lasting uPVC?

We remove all rotten woodwork and repair where necessary, before we install your new uPVC products, giving a long-lasting, maintenance free finish for years to come.

Location **East Midlands, Northamptonshire**
