<http://www.i-netsolution.com/item/elance-clone/683442> Fiverr Clone or Fiverr Script facilitates service buyers to post their buying requirements and service providers to place their bids in order to get the job. Powered by PHP/MySQL combination, This Elance Script designed with integrated tools for rapid deployment of viable solution. This Elance Clone comes with web-based administrative panel and has capabilities like manage users, financial transactions, categories and all relevant aspects of the system. The built-in accounting system helps to monitor earnings, monitor transactions, choose payment solutions and set commission rates or flat fee chargeable to freelancers and webmasters both. Payment for freelancers made after they successfully finish the job.
