Great folding electric bike, extremely light, hidden battery so looks just like a normal bike. I bought it in April (still have receipt as proof) but I cannot ride it as I find the handlebars too high for me would suit someone 5' 3 and over because the seat adjusts but the handlebars don't. It is as new apart from where I have tried to ride it you can see by the tyres , otherwise you only have too look at the chain etc to can tell it is new. Cost £1299 new so it it a bargain at £.
