Selenium online training (9 GBP)

Location   **London, London**
https://www.freeadsz.co.uk/x-482867-z

Online Selenium Training provided by LEO trainings with free demonstration sessions by more exclusive trainers. Our training faculty are working for MNC's company and they have real time experience.Our training center established study material and video record sessions, it helps to the learners for effective learning. We provides potential online training at anywhere. Selenium is a set of different software tools each with a different approach to supporting test automation. Most Selenium QA Engineers focus on the one or two tools that most meet the needs of their project, however learning all the tools will give you many different options for approaching different test automation problems. Course Content : Introduction of Automation Selenium Components INTRODUCTION TO JAVA Starting with Eclipse WEB DRIVER Selenium web driver Object Identification JAVA IN DETAIL Additional Concepts of Java used in Selenium SELENIUM LIFE CYCLE ADVANCED CONCEPTS OF SELENIUM For more details to contact: Email : click to contact Phone: +91-9553323599 www.leotrainings
