Tis with regret I have to find a new home for my 4 month old Lhasapoo puppy.. I have had him from 8 weeks old, he's fully vaccinated , wormed and microchipped. His mum is a Lhasa apso and dad is a toy poodle.. I have copies of parents 5 generation pedigree plus a clear DNA report for his dad from any eye conditions that poodles can suffer..He will come with everything he needs. His bed, toys and dishes. Harness lead..and little coat..He lives with 3 cats and is fab with my grand kids.. This is a genuine reason for us parting with him due to unforeseen work circumstances..He is an amazing little boy who is house trained and just uses a puppy pad at night or if you're not home.. Genuine replies only please.. ; .
