When you need your grounds, gardens and premises professionally maintained by a local firm which specialises and really cares about its customers, then your first choice has to be SGM Services. Customer service is our number one priority, right from the instant we pick up your call, to the completion of the task at hand, you'll feel the commitment we have for you. By working hard to keep your space, both internal and external looking great, we measure our success on the opportunity to serve many more satisfied customers who will happily come back to us time and time again. From lawns that need feeding and fertilizing, hedges that need cutting and trimming, jet washing and everything in between, SGM Services can do it all. Whether you just want a small service like your hedges pruned or your garden kept to show standard every week, we have the skills and experience to help. We currently maintain gardens ranging from small courtyards to larger communal areas and we specialise in creating low maintenance gardens. Equally with SGM Services' expertise in the construction trade for over 10 years, we can take the hassle out of any situation. Our professional tradesmen are available just when you need us for all those small handyman jobs that often occur like painting and decorating from a cupboard door to a full property in need of a freshen up, or installation of shelves to laminated flooring, always to a very high standard of finish. We like to approach things on a very personal basis, which is to be respectful of your premises and grounds and deal fairly with everyone we do business with. So our high quality service does not mean our prices are high, it means simply providing you with excellent value for money when delivering a reliable and thoroughly great solution to your needs. No matter your question, simply give us a call, we're always happy to.
