1/350 big scale super detail plastic model of WW2 IJN heavy cruiser 'Takao'. Comes with an upgrade set of specialist aftermarket brass turned main gun barrels. MRP for this gem is now around 200 pounds, plus the barrels at 20 pounds. A nice challenging and interesting subject for any marine modeller. An extremely rare kit these days. The last 5 images give an idea of what this finished kit could look like! Boxed, with all instructions/decals/flags/painting guide, etc. Brand new and not started. From my own stash, grab a bargain! Genuine private.
