About The Brand Panasonic is one of the largest Japanese electronics companies and the world's fourth-largest television manufacturer. It was established in 1918 and throughout the years has been offering a wide range of reliable technologies including household appliances, audio equipment, cameras, personal computers and televisions. Panasonic VIERA TVs have gained worldwide recognition for their high-quality resolutions, great craftsmanship and innovative designs, as well as for the wide choice of screen sizes and distinctive features. Ultimate picture quality, network connectivity and three-dimensional picture are among the impressive additions, which Panasonic is offering at its users' convenience. Product Identifiers
