EARTH TREE

BOOST THE QUALITY, TASTE AND SWEETNESS OF YOUR FRUIT TREES.

Revive soil with the Addition of micro organisms, bio char, mineral analysis & correction, specific pruning & limb stimulation, PH adjustment. Watch your garden flourish!

On site soil tests determine: PH, minerals, humidity

Location **West Midlands, West Midlands**
<https://www.freeadsz.co.uk/x-491532-z>

Hi there, my names Adam and im here to get the best out of your garden, wether it be flowers, shurbs, trees or food! On site tests will determine the PH, mineral content and humidity of your soil. Using natural and organic methods we will correct the Ph levels in the soil depending on what the soil is growing. Add necessary minerals, micro organism & bio char to hold the nutrients in the soil for many years to come. I also work as an arborist, mainly to improve the health of a tree and to give it the longest life possible. I will also perform tree reductions, remove any troublesome overhangs and dangerous.
