Carbon fibre road bike. Frame by Liyang!
 Large frame size. (I'm 6ft). Shimano R500 wheels, 18 speed Sora mechs right the way through. Jag wire cables. ICE crank and Richie finishing kit including light weight saddle, handle bars, seat stem and handle bar stem. The saddle is showing some discolouration but no rips or tears. Clarkes replaceable cassette brake pads (spare pads included) fitted. The bike weighs in at about 8.2kg and is a great base for further upgrades to lighten it even more. Frame by Liyang. I changed the ration of the rear cassette to 28-11 so its much easier for hill climbing. Now you may have noticed in the photos one or 2 of the bolt heads have a bit of rust on them, this is just on the bolt heads and would cost pence to replace and does not in any way affect the running of the bike. I ride all year round averaging 100 miles a week and i do it on this bike. Regularly maintained and currently running Vittoria tyres (rear could do with replacing). Excellent bike to ride and fantastic for longer rides. Viewing highly recommended. Ok now for the crappy bit, i'm not posting abroad, if you bid you bid to buy etc etc. You can arrange your own courier at your expense if you like. Contact number 07908121064 079081210...(click to reveal full phone number) ;
