

Experienced Guitarist Available

Location **South West, Avon** https://www.freeadsz.co.uk/x-498969-z

Experienced guitarist available. Looking to join or put together an awesome line up of musicians for a covers/originals band. I wouldn't want to put limitation on where the band could lead as I believe with the right musicians anything is possible. Also would be looking for short contract work abroad once band is set up. I'm looking for like minded musicians who take their playing seriously as I'm a full time musician myself. I use professional standard equipment using Mesa Boogie & Marshall Amplification , Musicman, Fender & Gibson guitars and various effects pedals. I'm in contact with a few sound engineers so sound at gigs can be expected to be high end. I have a full UK driving license and UK passport. My influences include Gary Moore, Slash, David Gilmour, John Mayer, Eric Clapton and many more. I like all styles of music though and have studied many while at BIMM university in Bristol. If this sounds like you or if you're looking for a guitarist to complete your project then please leave me a message. No time wasters please. I Look forward to hearing from.
