For sale is my 2007 Mazda RX-8 Kuro Edition. It has low mileage for its age - just over 66k miles. I love this car (was a member of the owners club) and really regret having to part with it but have to get something with a large boot for my new job. The Kuro edition is an exceptional looking version of the RX-8, with production limited to 500 cars. Last year the airbag was replaced by Mazda when there was a safety recall, they conducted a thorough visual inspection of the car and it passed with flying colours! It features a stunning Sparkling black Mica paint (looks amazing in the sun), full stone leather interior, Bose premium audio system with 6-CD auto-changer, darkened light bezels, fog lights, heated front seats, electrically operated drivers seat, climate control air conditioning, traction control, dynamic stability control and 8 airbags. Since purchasing the car nearly 3 years ago I've installed some upgrades: Rotary Revs D585 ignition coils (I still have the old ones if you require them) Magnecor leads (again I have the old ones) New spark plugs Racing beat cat back exhaust system (slight crack in one of the tailpipes but not visible) Rota Torque 18" alloy wheels new battery (still in warranty) LED lighting throughout Uniroyal Rainsport 3 tyres (Rated A in the wet) Matt black finish on all badges Tinted rear side windows (I have the tint for the rear windscreen which will be included in sale) Colour matched headlight eyebrows Being nearly 10 years old now there are of course some signs of wear and tear. Some marks on the drivers seat and the odd little ding on the body work. It used to have more dings but I had these professionally repaired and resprayed a couple of years ago. I would encourage coming to see this car in person, it is a dream to drive and has to be seen to be fully appreciated! Please call and I'll be happy to arrange a.
