My fathers fantastic Eddis Autoquest 180

The fantastically popular 6 berth layout lends itself to many different situations. Purchased new in 2013 this motorhome is in good order with a full history. The inside looks very modern and is very practical. It came with the comfort pack that included a host of extra's. The Peugeot diesel is very nice to drive and it has 6 gears and cruise control, 30mpg is easily achieved. Cab airconditioning is a bonus along with electric mirrors, windows and excellent sound system which you can operate from the multi function steering wheel. In the rear you will find all of the usual refinements including sunroof x 2, fly screens, blinds, good kitchen space, wardrobe, door seperating the front from the back, solid shower door, 2 tables, electric and gas heating, electric and gas boiler and much more. This Motorhome is still under manufacturers.
