SUZUKI DRZ 400 SK5 MOTORCYCLE FOR SALE £3,200 O.N.O IN EXCELLENT CONDITION WITH GENUINE LOW MILEAGE (documented) An exceptionally clean example of Suzuki's well designed and much sought after 400cc model, with very low mileage and most definitely a much loved and cared for machine. MCN review 2006 states "Brilliantly competent dual-purpose motorcycle that's as happy pottering through the gridlock as it is bouncing over a paddock". My Suzuki DRZ 400 SK5 is a stunning motorcycle in eye catching yellow with red and black motifs and would be equally at home on short urban runs or blazing a trail across the countryside and hills. This is quite a powerful bike and is part of a collection being sold by the owner (me) due to a lack of use and change in lifestyle/personal circumstances. The bike is in extremely good condition for the year and has a very low mileage (5,900 genuine miles recorded, evidenced and documented) and has never been trailed to my knowledge. The bike was originally purchased in the UK but has been kept garaged in Spain for the last six years with little use and was shipped back to the UK on 16th February 2017. The bike has a valid MOT, 2 good tyres, 2 ignition keys and 1 steering lock key, plus a CD version of the owner's manual. If you are looking for a genuine low mileage and un-abused example of this incredibly sought after and much capable machine then this will not disappoint. Successful buyer to collect upon proof of payment or cash having been received. Transport can be arranged although at buyer's cost and at buyer's responsibility. Note 1. This item is advertised elsewhere and the seller reserves the right to remove the item from listing at any time. Note 2. No offers of swaps, other advertisers, agents, agencies, scammers, tyre kickers or time wasters and no test rides given unless the money is in my hand. Only genuine enquirers will be dealt with, in a polite and courteous.
