First Aid in the workplace. Did you know that an estimated 611,000 workers in Britain sustained an injury at work in 2014/15? The Health and Safety (First Aid) Regulations 1981 require all employers to make arrangements to ensure their employees receive immediate attention if they are injured or taken ill at work. This includes carrying out a risk assessment, appointing a suitable amount of first aiders and providing appropriate first aid training. However, having the correct first aid provision in the workplace is not just a legal requirement, it is incredibly important for the safety of all members of staff! IS-Training are a Health & Safety Training company that are running a joint course Basingstoke Hampshire on Tuesday 28th March - Wednesday 29th March 2017. The Level 3 FAW R and Level 2 EFAAW include the safe use of an AED are both regulated courses through Qualsafe Awards. Please get in contact for further information on these courses or other we provide. click to
