New Volvo FM 460 8x2 Hydraulic Beavertail, Euro 5, 460BHP, Globetrotter Cab, Twin Bunks, 2 x 8T Front Axles, i-shift gearbox, Volvo Engine brake + exhaust pressure governor, Single Reduction rear axle, Air Con, Bluetooth with USB, Sun Visor, Durabright Alloys, 26ft Beavertail Body, 2 x Hydraulic Ramps, Hydraulic Beavertail, Spare Wheel & Carrier, 1 x Front Locker Box, 12 x Load Lashing Points (6 each side), Container Twist Locks, 2 x work lamps, Galvanised Rear Mud wings, Galvanised Side Guards, 62 T/M knuckle-boom loading crane fitted, Palfinger PK62002D-EH, Factory Fitted Remote Control, 5 Hydraulic Extensions, Rear wide Stabilizers, This Volvo FM 460 8x2 Hydraulic Beavertail crane vehicle fitted with a Palfinger PK 62002 D-EH crane is now available for lease or contract hire. This new Volvo FM crane vehicle is fitted with our latest engineered body, a 26ft flatbed with hydraulic beavertail. This newly designed body has a fully powered hydraulic beavertail and twin hydraulic ramps providing quick and easy operation. A new and improved design which offers several benefits over a cheesewedge body design. Primarily in the loading of wheeled equipment and track machinery. Due to not having a conventional cheesewedge ramp you can load to the end of the hydraulic beavertail body which provides greater loading space over a cheese-wedge body. If you are a Transport Manager looking for a well-rounded crane vehicle for moving cabins, containers, wheeled machinery and plant equipment look no further than this highly developed hydraulic beavertail design fitted with the latest 62 tonne metre knuckle boom crane from market leader Palfingers performance range. As one of the leading crane truck manufacturers in the UK we continually look at ways to improve our products and believe that this recent design offers greater flexibility for drivers and transport managers to do more in less time. For full details on this crane vehicle or to arrange a demonstration please contact our Sal
