I am an experienced gardener with 7 years experience of working for private clients in the local area. I can undertake all general garden maintenance including weeding beds and borders, hedge and shrub trimming and re-shaping and lawn mowing and maintenance. I can also help you with planting plans and designs if you want a more substantial change to your gardens layout. I can also help advise with choice and positioning of plants and help with maintenance of new plants including such things as mulching and feeding to get the best out of your garden. I am very happy to discuss your needs and aspirations for your garden and work with you to achieve a beautiful and functional.
