This kit has been stripped down - all hardware has been removed, the shells cleaned and polished, and all hardware fully cleaned. All corrosion and pitting has been removed (where possible), all chrome parts have been buffed and polished. Bearing edges have all been cleaned, smoothed and lubricated. New Code Law Batter heads have been fitted to the Tom Toms, a Code Zero Reverse Dot Batter Head fitted to the Snare Drum, and a Code Blast Batter Head Fitted to the Kick Drum. The existing CB Resonant heads (made by Remo) have been cleaned and reused. The Snare Wires have been replaced with new, as has the Bass/Kick Pedal Beater. There are a few scuffs and marks on all shells, but this is just normal "wear and tear" damage, and is not massively noticeable.

The kit has been professionally tuned, and comes with a report detailing all work done on the kit, a new pair of 5A Drum Sticks, and a Tuning Key. Ideal for a beginner, this kit has everything you need to get drumming...!!

Collection only, due to the size, however if you live within 15 miles of Didcot, I can deliver to you and assist with setting up if required - please send me a message to confirm.
