A very rare and sort after LWT T4, with a 2.5 litre, 5 cylinder petrol engine. Recently had £850 spent on it, see below. Low mileage 125,000, New MOT Certificate until 21 February 2018, potential to save a significant cost in fuel over time. Owned since 2012 and it has been absolutely brilliant. Just spent £850 on it which included a full Service, new central & rear exhaust box, front ball joints, track rod ends and new heavy duty battery, with 3 year warrantee. Along with some other fixes, like horn etc. We have the paper work for this. 17 inch wheels and lowered 50mm. It has the benefit of an LPG conversion, however has not worked for the past year, we are not sure why, but would imagine it could be fixed for a reasonable price. It has 5 seats and a shelf along the side and is boarded out. This would make a great day van or conversion. It has a little bit of surface rust and a dent in back door, see picture. Only used for social domestic and pleasure, including BMX bike trips, hence the main reason for ownership. Contact Steve 07748327503 077483275...(click to reveal full phone)
